VWB James Wing, Worshipful Master

Greetings From the East

Brethren,

I hope you all have taken some time to enjoy the beautiful weather, it looks like it may be sticking around for a few weeks! At this month's stated meeting we will be having a step-up night. I will make myself scarce, and Sr. Warden John Laws and the other officers will run the meeting.

This month our "Masonry Around the World" will focus on Mexico. We will be hearing another wonderful lecture by Brother Laws, and well as enjoy some Mexican fare, prepared by our Jr. Warden Steve Thompson.

We had a degree at our last stated, and I would like to take this opportunity to welcome our newest Entered Apprentice, George DeVack! Ridgefield also had an Entered Apprentice, Milton Spillers, who was also initiated that night. It was great to have two brothers initiated the same night! We welcome you both, and wish you much success along your Masonic journey. We will be there to guide you along the way, as all brothers have done before.

With the warmer weather, we look forward to Grand Lodge and our Masonic Picnic, which, if things go as planned will also be the Instalation of Officers for 2013-14! As plans fall into place, due notice will be given.

Make sure to fill out the survey in this newsletter, or follow the link to the online version. Your answers to these questions will help guide your officers in creating the kind of lodge you are proud to attend!

Fraternally,

James Wing, VWM

Masonry Around the World: Mexico

From the West...

By Bro. John Laws, Sr. Warden

What an enjoyable Stated Meeting we had in April! The Middle Eastern food with charcoal grilled lamb and chicken was wonderful. Having several visitors interested in Freemasonry from the front sign was a joy! The Rainbow girls in their formal dresses were fun. Having to add extra tables at dinner and the sidelines full in lodge is priceless! A comment was made to me that it wasn't just like another boring business meeting and I agree. It is the kind of evening we all should work hard to recreate!

The best moment of the night for me was making now Worshipful Brother Ralph Olson an Honorary Past Master. WB Ralph is a 50+ year Mason who is there at lodge nearly every month. While he never went through the line, WB Ralph has quietly been a rock of a Mason; while some of us identify WB Ralph as the guardian of the flag memorial and a pinochle card shark, he has quietly behind the scenes taken care of the widows and contributed to youth groups without seeking any recognition for more years than most of us have been alive. I think we caught him off guard because to WB Ralph, it is just what Masons do. I even learned something new about Ralph - that his wife of 60+ years, Phyllis, is a Rainbow Girl. We love you Ralph!

RWB Richard Chase, AF&AM of Oregon was on the sidelines; it is hard to call him a 'visitor', because he received his degrees in our lodge before moving to Oregon. He has expressed a desire to come home to his Mother Lodge and rejoin our ranks again!

The May Stated meeting will be May 9th with dinner at 6:30 PM at the VMC. It will be step up night and I will be in the East… While I thought I had most of the ritual down, I paid close attention to all the stuff that happens in between opening and closing and it is making me nervous! There is much to work on with little time. Pray for me brothers as my cable tow will be stretched!

What is a Cable Tow?

I read an article a time back that proposed an answer to the origin of this term of antiquity 'cable tow' in Masonry. The author proposes that this word originated from the language of the Saxons, an archaic form of German. In the Saxon language, a 'Tau' (pronounced like 'towel' without the L) is spun yarn or fiber woven into a strong rope. Operative Masons would carry a length as a tool to raise loads of materials and other implements to high places and to tie off when laying stone at height as a safety line.

As medieval operative Masons became more skilled, they were given a longer 'cable tau'; a long 'cable tau' would be an emblem of personal skill carried with pride by craftsmen. It was considered unreasonable for any Master or Superintendent of the work to ask a Mason to do something that was beyond the length of his 'cable tau'. In speculative masonry, we still obligate ourselves to certain things "if within the length of my cable tow".

Bro. Steve Thompson
Junior Warden

Greetings my Brothers,

This has been a very busy month, hectic but very productive. In addition to being your Junior Warden, I am also the Dad Advisor for our local DeMolay chapter and attended the annual Conclave from the 18th through the 21st . On that Thursday I also had the honor of being asked to confer a Master Mason degree for a brother in Longview Lodge #263.

As I write this, I am looking forward to conferring not one, but two Entered Apprentice degrees this evening. Oh, and for those who don't know yet, I have assumed the duties of Building manager for the Vancouver Masonic Center as of the first of April. Now, while this may sound like a "poor me, look how busy I am" beginning to this column, my intent is to say that I am excited by this activity.

Conferring degrees – or participating in degrees – means that new brothers are entering the craft and progressing up the ranks. Being down her at the Center every day gives me an opportunity to talk with and share my enthusiasm for the fraternity with gentlemen who stop in off the street and ask about Masonry (and yes, there have been a few). Each one who has stopped in has left with a petition in hand, expressing a desire to be involved in our labors and privileges.

My time at the DeMolay Conclave allowed me to be around a large group of young men, dedicated and motivated to grow their own organization and become better young men in the process. The boys – and we advisors – spent a lot of time talking about ways to get the word out and make DeMolay a well-known organization outside of the Masonic family. The reason is summed up in the question, "Why would someone want to join us, if no one knows who we are?" There are many way to do this and I will be happy to talk to any of you about them, just come ask me. The one I want to discuss here though is the easiest, and most direct – TALK TO PEOPLE!

We are all proud of being Masons, otherwise why would we have joined the Fraternity? If we are proud of it, we should be eager to talk about it. We all have circles of friends outside the craft, and many may be interested but don't know what questions to ask, or how to approach our "secret" society. Let them know that there is no big secret – we welcome all good men and true and have been practicing tolerance and acceptance since the 1700s. I would make the same challenge to you that we make to our DeMolay boys – ***bring in at least two new people, one to replace you and one to grow the craft.*** This is a dynamic, uplifting, and fulfilling organization – I am sure you know of at least a couple people you care enough to share it with.

Ok, enough preaching. Thanks to Brother Gevorg Mkhitaryan of Washington 4 for his invaluable help in bringing you all that wonderful lamb dinner. I was thrilled to have to add on extra tables to accommodate everyone…let's keep that sort of turnout going! Speaking of dinners, next month we are travelling south of the border (no, even further than Oregon) and having a Mexican feast in honor of the Battle of La Puebla – better known to us gringos as Cinco de Mayo. The menu is shaping up to be chicken enchiladas (spicy mole will be on the side for those who have delicate stomachs), black beans and rice, and hopefully corn tomalitas…that is, if I can get the recipe to work right. Hope to see you all there.

Book Review

The Secret Psychology of Freemasonry

Review by Br. Jason Masuoka

Br. Cliff Porter, Author

Friendship Lodge 160 was packed, and it's members and visitors eager with anticipation, awaiting the lecture by renowned author and public speaker, and Mason, Brother Cliff Porter. Brother Porter was invited from his home lodge in Colorado, to give a talk on his book "The Secret Psychology of Freemasonry."

The book delves into Masonic ritual, revealing the ancient mysteries hidden within the text- that, when properly deciphered, gives us access to ancient knowledge about the nature of humanity.

Brother Porter uses Jungian psychoanalyses, Masonic geometry and the mysteries of alchemy to bring to light secrets in words that are familiar to our Brethren, although very few of us actually understand the meaning behind them.

It has been said that Freemasonry is not a secret society, it is a society with secrets. Brother Porter, in his book, reveals those secrets and gives us a new understanding of what it means to be a Freemason.

He is very careful to only reveal what is can currently be found in plain text monitors common to most jurisdictions, and stays away from the secret work. However, if we follow the logic and systems of understanding that he demonstrates, when we reread our ritual we enter through the Masonic portals as if for the very first time, with a deeper appreciation for the secrets veiled within. I highly recommend this book to any brother who wants to "reinvest our brotherhood with the secrets of which it has been divested."

A special thank you to the brethren at Friendship Lodge 160 who invited us to the event, and who demonstrates the importance of Masonic education!

It is also rumored that these fine brethren will be hosting a night with Christopher Hodapp, author of "Freemasonry for Dummies", and despite it's name, one of the best resources for the layman interested in the Craft.

"I'm the Guy"

I'm the guy who asked to join your organization. I'm the guy who paid his dues to join. I'm the guy who stood up in front of all of you and promised to be faithful and loyal.

I'm the guy who came to your meetings and no one paid any attention to. I tried several times to be friendly to some of the fellows, but they all had their own buddies they talk to and sat next to.

I sat down several times but no one paid any attention to me. I hoped very much that somebody would have asked me to take part in a fund-raising project or something, but no one saw my ef orts when I volunteered.

I missed a few meetings after joining because I was sick and couldn't be there. No one asked me at the next meeting where I had been. I guess it didn't matter very much to the others whether I was there or not.

The next meeting I decided to stay home and watch TV. The following meeting I attended, no one asked me where I was when the last meeting was held.

You might say I'ma good guy, a good family man who holds a responsible job, loves his community, and his country.

You know who else I am? I'm the guy who never came back!

It amuses me when I think back on how the heads of the organization and the members were discussing why the organization was losing members. It amuses me now to think that they spent so much time looking for new members when I was there all the time.

All they needed to do was make me feel needed, wanted and welcome!

Masonic Family Bowling Night

Big Al's Bowling Alley in Vancouver, WA

What started out as a family-friendly Masonic activity, has become much more than that, as our youth has turned the event, occurring every 5th Thursday of the year, into a recruiting opportunity to increase their membership- and it's working! It' s great to see our youth groups having fun, and wanting their friends to share in the experience.

Mt Hood Lodge #32 pays for the lanes, and all you have to do is bring a few bucks for the shoe rental and refreshments! The event is open to all lodge members, Masonic youth groups, and their families.

The next fifth Thursday take place on **May 30th.** Let an officer of the lodge know if you plan on attending, so that Brother Steve Thompson can reserve enough lanes.

Big Al's is a full-service bowing ally with a restaurant, bar, pool tables, shuffle board, an arcade, and a bowling shop.
